## BAGGAGE COMPARTMENTS

Our Baggage Compartments are custom designed and manufactured to provide your aircraft with a sturdy and attractive area for storing baggage, books, charts, etc. If your aircraft is not listed, please send us the old baggage compartment to use as a pattern for a new one. Available in two colors: off-white or olive drab canvas.

**Note: Complete the part number with color choice. Use -1 for off-white or -2 for olive drab. Baggage Compartments are special order & non-returnable**

## THE ULTIMATE DOOR SEAL

The Ultimate Door Seal compensates for ill-fitting doors and in-flight door movement, thus keeping a positive seal to reduce the high pitched sound which causes fatigue, anxiety, and progressive hearing loss in pilots and passengers. The Deluxe Electric model features a panel mounted air control valve which is fully automatic in flight with electric power supply module. The Deluxe model features a handheld manometer bulb mounted permanently coiled hose and mounting bracket and panel mounted air flow control valve. The Economy model is the same system as the Deluxe but features a self-contained thumb screw air flow valve mounted on a manometer bulb with storage bracket mounted on the door. Requires no hoses or wires to be run. All systems contain everything needed for installation. All components covered under F.A.A. STC's & PMA.
