

POLISHES – CLEANERS

AERO GLOSS

Aero Gloss polish is used by 80% of the world's major airlines. It is now available to the general aviation and experimental aircraft market. Removes turbine soot and exhaust stains from paints. It is an excellent plexiglass polish and can be applied with a power buffer. It takes 1-2 pints and 3-4 hours to polish an average Cessna 182 with Aero Gloss.

Pint P/N 09-38100
 Gallon P/N 09-38101
 5 Gallon P/N 09-02180

STAR BRITE AIRCRAFT POLISH

This exceptional new polish cleans off dirt, stains and oxidation and restores the original bright color of the aircraft leaving a dazzling shine. StarBrite also cuts fuel consumption and boosts speed by reducing drag an amazing 5.5%. Contains no wax, oils or acids. 16 fl.oz. P/N 09-23900

TOP GUN ULTRA FINISH

Top Gun Ultra Finish is the ideal one-step product for all aircraft finishes. The product removes surface contaminants and oxidation through a unique chemical process, rather than using harsh abrasives. The coating left behind is not a wax, but an extremely hard and durable sealant. This affords superior long term protection (up to 12 months or longer), and easier cleaning of your finish. Once applied, bugs and corrosive elements remove more easily. Use Top Gun Ultra Finish to add brilliance to your aluminum and magnesium alloys. It is also very effective in restoring clarity to plexiglass windshields, side windows, and lenses. 16 fl. oz. Made in the U.S.A. 16 oz. P/N 09-00192

RACERS EDGE POLISH

Specifically formulated to provide drag reduction, use of this revolutionary formula results in increased air speed, protection, and the richest, deepest shine. Flight tested by the U.S. Air Force and engineering certified for all Boeing, Douglas and Airbus aircrafts. Blend of highly protective properties provide maximum protection for all elements of nature & engine exhaust. Apply by hand or machine. P/N 09-00157

SEAL-A-PLANE

Seal-A-Plane provide an unbelievable shine that seals and protects the finish; we have also found that the exhaust and bugs don't like to stick to the surface and can be removed with just a damp cloth. Unlike products that were designed for the automobile industry, Seal-A-Plane is for aircraft and protects the aircraft surfaces from harmful UV rays and corrosion. Common waxes breakdown in the sun. Seal-A-Plane actually gets harder in the sun and is stable up to 500 degrees F. Seal-A-Plane contains no silicones and is non corrosive. It normally only requires application once a year (depending on the planes operating environment) and can be used on any surface including fiberglass and Plexiglas. Never before has there been a product on the market like Seal-A-Plane. Turbine owners especially will appreciate a product that is available that will remove the ugly exhaust stains. One 16 ounce bottle will be enough for most single engine planes and two will do most light twins. P/N 09-01650

MASTER FORMULA - SEALER GLOSS

Master Formula Sealer Gloss Protective Sealer waterproofs, protects and seals any hard surface. It leaves a durable, glossy protective coating that's easily maintained and lasts up to one full year. Master Formula Sealer Gloss is excellent for use on any metal or painted surface. These surfaces include all car finishes including clear coats, gel coats, plastics fiber glass. They also include all metal surfaces such as aluminum, chrome, brass, stainless steel, gold, silver and more. 16oz. P/N 09-02077

12OZ P/N 09-02077
 16OZ P/N 09-01609

MET-ALL

An aluminum polish which removes and prevents pitting. Makes aluminum shine with mirror-like brilliance. Non-toxic, non-abrasive and non-flammable. A non-silicone product which resists further corrosion. Meets military specifications. 1 Lb. Can P/N 09-24200
 2 Lb. Can P/N 09-24300

BUG BLASTER SPRAY

Dissolves and removes bugs without scrubbing - no elbow grease is required! This is a quick, time saving product. Just spray, wait and wipe. Finally a product that solves messy problems without being messy!! Unlike other formulations, when sprayed, Bug Blaster instantly attacks bug proteins and acids. You will not have the dripping, messy run-off you have with conventional bug removers. Perfect for use in paint shop environments where run-offs need to be avoided. 32 OZ P/N 09-02080
 1 GALLON P/N 09-02081

MET-ALL DETAIL POLISHING KIT

Met-All's Detail Polishing Kit will produce a show room finish on bare metal, painted surfaces and fiberglass using Met-All polishes and premium bonnets. Each bonnet features a recessed loop back so the edge and face can be effectively used with less concern for marring the finish. Change pads quickly and easily. Ideal for polishing aircraft, cars, motorcycles, boats etc. P/N 09-00448

BLUE MAGIC METAL POLISH

Blue Magic produces a deep mirror shine. The oxide residue left after polishing is easily wiped off with a rag. A small amount will polish a large area. Airshow aerobatic pilot Chuck Lischer, Jr., whose high performance Swift is shown here, recommends Blue Magic as the best polish available for polished aluminum aircraft. #500 1 lb. Can P/N 09-24600

210® PLASTIC CLEANER/POLISH

•Anti-static, Anti-fog • Will remove marks from crayons, magic markers and paint oversprays • Removes residue glue from protective backings and masking tape • Evaporating properties in the formula - cleaning is quick and easy without leaving any streaks or swirl marks • Resists fingerprints • Seals pores in plastic and leaves a protective coating • Pleasant clean aroma • Gives plastic a clear, lustrous look. 7 oz. P/N 09-00518
 14 oz. P/N 09-00517

210® PLUS PLASTIC SCRATCH REMOVER

•Extremely mild abrasive compound, with anti-static and anti-fog properties in its formula • Ideal for the removal of surface scratches and blemishes from windshields or heavy cleaning of all plastic materials • Water soluble, excess can be wiped off with a wet sponge or cloth • Easy to use. 15 oz. P/N 09-00519

210® WINDSHIELD CARE KIT

Recommended by LP Aero Plastics and other leading aircraft windshield manufacturers, our 210® Plastic Cleaner & 210® Plus will help keep your windshield crystal clear and scratch free for safe, enjoyable flying. Our Windshield Care Kit Contains: (1) 7 oz. 210® Anti Static/Anti-Fog cleaner & polish, (1) 7.5 oz. 210® Plus Anti-Static plastic scratch remover, (100) 9"x 16" Sontara Aircraft Wipes. P/N 09-00521

CLEARVIEW PLASTIC CLEANER/POLISH

Bring new life to your plastics with Clearview. Developed to clean, polish and protect all types of clear and colored plastics. Helps hide small scratches by filling them with a fine protective coating. Wipes on & off easily with no smudges or residue. Anti-static. Spray can. 16 oz. P/N 09-00531

RAIN AWAY

A protective treatment which leaves a clear, smooth, non-stick surface. Visibility is improved by repelling rain, bugs, frost and road film. Raindrops bead up and are blown away while flying. P/N 09-01279

GRANITIZE METAL POLISH SYSTEM

Simple but effective system of six polishes designed to polish painted surfaces, aluminum 22916T6 & 2024T6 both clad and bare, and other metals including steel and titanium. All polishes are color coded to reduce cross contamination and aid in taking the guesswork out of any polishing procedure. When used properly, The Granitize System will produce a smooth, highly reflective mirror-like surface on brightwork that can be treated with Xzilon molecular adhesion to maintain the finish.

FINISH

XMP-S METAL POLISH (SUPERFINE) - Final polish for a mirror like finish. Can also be used on painted surface. P/N 09-02181

XMP-M METAL POLISH (MEDIUM) - For Light oxidation/scratches, Rain Spotting. Can also be used on painted surfaces. P/N 09-02184

CUTTING

XMP-C METAL POLISH (COARSE) - For Medium oxidation/scratches. P/N 09-02233
