## XEVISION PERSONAL LED FLASHLIGHTS

The compact LED flashlights are so small that they fit in the palm of a hand comfortably. They are so bright, even die-hard HID Xenon lighting technology purists can not resist.

### Super-bright white light from one small but powerful LED

Our LED flashlights feature the latest commercial Cree LED 7090 XR-E, which delivers unprecedented levels of bright white light. The legendary 7090 XR-E is tested to the

highest standards in the LED industry. The white light generated is as cool as HID with around 4000°K to 5000°K. The current draw is quite small while the LED is very efficient with a luminous flux of up to 100 lm min. @ 350 mA, and a luminous efficacy up to 75 lumens/watt.

### XeVision personal LED flashlight models

The compact LED flashlights are so small that they fit in the palm of a hand comfortably. They are so bright, even die-hard HID Xenon lighting technology purists can not resist.

**XV-C1C** - Is their most compact LED flashlight using one long-lasting 3 VDC Lithium CR123A battery. The XV-C1C features six settings, 4 of them being output levels. This flexibility not only allows the user to select the best compromise between brightness and runtime for any given task but also has the ability to aid in an emergency. The XV-C1C offers a remarkably compact size and is extremely solid and reliable with its digitally regulated brightness. One 3 VDC CR123A Lithium battery

## ACCESSORIES

Model	Description	Part No.	Price
<b>WF-138C</b> Charger for XeVision XV-C2C	Charger for a single or pair of over-discharge protected R-CR123A rechargeable Li-Ion cells. Comes with 2 R-CR123A cells.	13-05141	.
<b>WF-138</b> Charger only	Just the charger - for the WF-123 combo package	13-05140	.
<b>ICR123</b> Rechargeable Lithium Batteries	These ICR123 rechargeable 3 V batteries used for the XV-C2V LED flashlight. Note that the standard CR123A batteries must not be recharged!	13-05139	.
<b>CR123A</b> Single Cell Lithium Technology	1 Titanium 3 V CR123A battery. For the XV-C1C LED flashlight. Prevents excessive discharge that can damage lithium cells and may lead to catastrophic incidents.	13-05142	.
<b>CR123AX2</b> Twin Cell Lithium Batteries	2 Titanium CR123A batteries are carefully matched and form one single sealed unit, 3 V but double capacity). Used for the XV-C2C LED flashlight. Prevent excessive discharge that can damage lithium cells and may lead to catastrophic incidents.	13-05143	.

## ASA PILOT'S FLASHLIGHT

This AirClassics Aviation flashlight has both white and red lenses for preflight and night flying, and MIL spec blue-green lens for map reading. This Pilot Flightlight is water-tight, corrosion resistant, has an extra Krypton bulb stored within, and features a clicking ON/OFF for maximum battery life. Focuses from spot to flood light. This aviation flashlight is black machined aluminum with ASA wings logo. Two AA batteries and PR-1 bulb included.

## PILOTS 2 COLOR FLASHLIGHT

20 Bright White LEDs and 6 Red LEDs in an inexpensive aluminum flashlight - Ideal for pilots and flight crews

- Anodized aluminum housing with 26 LEDs
- 20 Super-bright White color LEDs for normal use
- 6 Bright Red color LEDs for use when pre-serving night vision
- Water resistant push-button switch selects White-Off-Red-Off
- Uses 3 common AAA cells (included) for over 20 hours of use
- LEDs rated over 100,000 hours

P/N 13-05664.....

## AEROCOAST LED FLASHLIGHT

Led Flashlight with 12 high intensity white LED bulbs. \* Single color 12 led flashlight \* 80 Lumens 100 hr battery life \* Light weight aluminum casting \* Battery type: 3 x AAA \* Size: 42 x 147 mm P/N 13-06043.....

## LED CAP LIGHT

5 Bright White LED Cap Light - Perfect for hand-free illumination during maintenance or trouble-shooting

- Lightweight, compact 5 LED hat light clips onto baseball caps
- Great for hands-free light during maintenance or troubleshooting

- Uses two (2) lithium coin cells for up to 96 hours of illumination
- Blister packaged with batteries
- Five extra-bright White LEDs with a life of over 100,000 hours

P/N 13-05662.....

## THE LIGHTED PILOT PEN

Professional LED Writing Instrument for Pilots, Flight Crews, Law Enforcement and Military Use. Features: • Aircraft aluminum housing with on/off LED lighting and rotating top cap ink cartridge retraction. • Works as either a standard pen or for writing in low light or dark conditions. • Uses one

common AAA cell for up to 20 hours of illumination • Gift box packaged with an extra ink cartridge and extra AAA cell • Two extra-bright White LEDs with a life of over 100,000 hours P/N 13-05278.....

## PILOT'S COCKPIT UTILITY & EMERGENCY LIGHT

See all your panel control settings, maps, charts, compass, and log books. Choose red light for night vision, or bright white light. Designed to travel anywhere, the Navigation Light can be clipped to most surfaces or used free-standing. Uses: \* Aviation \* Marine \* Automotive \* Trucking \* RV \* Emergency Response Vehicles Features: \* Four different light level options \* Two red LEDs in one head and two white LEDs in a second

allow for lighting versatility \* Dual flexible arms provide infinite maneuverability \* Sensor switches on each lighting head require just a tap to turn on one or both LEDs \* Optical grade lens provides evenly distributed light with no hot spots \* Easily bends to compact position for storage \* Offers 20 hours of continuous use on 3 AAA batteries \* Extra strong clip grips almost anything \* Uses 3 AAA batteries (included) or available AC Adapter (110-240 Volts) (not included) P/N 11-05821.....

## ASA TRI-LITE NAVIGATOR

The Tri-Lite flashlight is equipped with red, green, and white LEDs providing maximum flexibility and everything the pilot needs to

maintain night vision while also providing the true-color options necessary for accurate chart, fuel, and oil color interpretation. Hands-free operation is made possible by 3 Velcro®-like (3M Dual Lock) mounting strips. The light can be snapped onto headsets, kneeboards or other flat surfaces, and can be quickly removed and re-attached. When attached to a headset, a focused beam of light is directed wherever the pilot looks. P/N 13-05753.....
