

# PEDAL PLANES - SCOOTERS

## R V SPORT – PEDAL PLANE KIT

The RV-Sport is a miniature homebuilt airplane which is a great learning experience for parents and children and when completed is a unique pedal powered toy for kids. It was engineered with the builder and the youngster in mind. The simple construction will exercise your skills in basic woodworking, sheet metal, fitting and gluing plastic, finish painting, and detailing. Your completed RV-Sport will be a rugged, realistic toy that is sure to be a hit with every kid on the block. The RV-Sport is built using basic shop tools, and is the ideal "mini-homebuilt" for homebuilders and pilots of all ages! Purchase just the plan set with assembly manual and information updates or the complete kit which includes these items plus hardware, plastic items, & finish decal set.

## F4U-1 CORSAIR JR. PEDAL PLANE KIT FOR KIDS

The F4U-1 Corsair Jr. is a miniature homebuilt airplane which is a great learning experience for parents and children and when completed is a unique pedal

powered toy for kids. The Corsair Jr. is built using basic shop tools and is sure to be the hit with every kid on the block. The simple construction will exercise your skills in basic woodworking, sheet metal, fitting & gluing plastic, finish painting, & detailing. The F4U-1 Corsair Jr. is available in following kits:

- Plans and Patterns only ..... P/N 13-30730 .....
- Plastic Kit only ..... P/N 13-30735 .....
- Hardware, landing gear, steering, folding with hinges, fasteners  
P/N 13-30740 .....
- Complete Construction Kit ..... P/N 13-30745 .....

**Note:** The plastic Kit Only is highly recommended when you order the plans due to the great amount of detail required to achieve the real F4U look. The plane can be built without the Plastic Kit but it will take longer.

## GO-PED LIGHTWEIGHT MOTORIZED SCOOTER

The patented Go-Ped design combines a strong chromoly frame with a lightweight folding handle system to achieve maximum strength along with portability. The sturdy frame has an electrostatic powder coat finish. Go-Ped weighs only 20lbs but can support up to 400lbs. Powered by a precision 2-stroke engine that quietly propels itself at speeds of up to 20 mph, the Go-Ped has the ability to conquer steep hills. Its tires are fabricated of a very resilient natural rubber which will never go flat. The Go-Ped averages well over 100

MPG on pre-mixed unleaded gas. Due to a very low center of gravity, riding the Go-Ped is easier than riding bicycle. To start your Go-Ped just step on and push or pull forward. The Liquidmatic Go-Ped is ideal for the crowd that appreciates or needs a unique ultra-smooth hydraulic automatic transmission. The Liquidmatic is available in Yellow with Purple accents. The Go-Ped folds as quickly and as easily an umbrella for storage and fits in the optional carry bag, which doubles as a cargo carrying backpack. With a space displacement of only 2.5 cubic feet, the Go-Ped can be easily stored in your car, boat, motorhome or airplane. Features:  
\* Engine Model: GPL290 \* Engine Description: Single Cylinder, Two Stroke, Air Cooled \* Engine Displacement: 29cc \* Engine Power: 2.5 HP \* Engine Ignition: Electronic \* Engine Cutoff: Handlebar Kill Switch .... \* Carburetion: Walbro \* Transmission: Direct Drive \* Fuel Gas: & 2 Cycle oil @ 40:1 \* Fuel Capacity: 1 Liter \* Fuel Economy: 100 mpg \* Max Speed 20 mpg \* Dimensions: L-34" W-13" H-42", Folded L-34" W-13" H-14" \* Handlebar: 6061-T6 aircraft aluminum \* Frame Aircraft quality: 4130 Chromyl frame \* Fork Patented: cantilevered aircraft quality 4130 Chromyl fork \* Dry Weight 20 lbs \* Max Load: 400 lbs \* Wheel Type: 6" Solid Go-Active™ Rubber replaceable tire \* Rims Mach: 12 reinforced high impact polymer \* Folding Effortless folding feature for easy storage and carrying \* Suggested Useage: City / Cruising

## PRO PILOT LANYARD KIT

\* Lanyard: The all black heavy duty detachable nylon lanyard is 20 inches in length from the top of the lanyard to the bottom of the J-hook. The detachable portion is short in length (approximately 2 ½ inches)

\* Flashlight: The black and silver Garrity Lithium L.E.D. is the brightest, whitest single light available. It features an L.E.D. light. It provides years of intermittent light or more than 23 hours of continuous light. The Diode lasts 100,000 hours. It has an

on-off switch or simply press down on the center of the "on-off switch" for intermittent lighting. 2 lithium button-cell batteries are included. The flashlight attaches to the J-hook.

\* Badge clip/ universal grabber: The alligator-type badge clip has a black strap (snaps open and closed) permanently fixed to it that swivels. Connected to the strap is an optional black universal grabber (included) for badges without a slot hole, withstanding up to 5 pounds of vertical force and more than 5 pounds of horizontal force.

\* Earplugs: The Howard Leights NRR (Noise Reduction Rate) is 33 decibels. Highest rated disposable ear plugs on the market. Tie it to the top portion of the lanyard to always have instant access to the earplugs.

## PROPELLER CEILING FANS

This propeller ceiling fan is fitted with a custom made propeller especially crafted to work as a nostalgic and functional unit...they sound great too. The three speed fan with a light, will run in both forward and reverse and comes in gloss white with a white glass globe. The propeller is available in two shapes, the simple standard as well as in a scimitar shape (my favorite), both are dark stained and finished in a gloss urethane. The fan motor unit is a complete package inclusive of the typical four paddle blades. Includes simple instructions on how to mount and balance the custom hand made propeller in place of the four paddle blades.
