

JEPPESEN AVIATION VIDEOS/DVDS/BOOKS

JEPPESEN FLIGHTTIME VIDEOS

Weather, Emergencies, Air Safety

WEATHER HAZARDS: Provides a review of conditions for thunderstorms; in-depth look at the internal forces of thunderstorms; overview and causes/ effects of wind shear; special look at microbursts; & tips on avoiding these hazards.
P/N 3543

AIRCRAFT ICING: Includes pre-flight planning considerations; operational considerations on the ground; flight effects on aerodynamics performance; conditions conducive to ice formation; and recognition/prevention of induction system icing.
P/N 3028

BASIC AVIATION PHYSIOLOGY: Covers avoiding/recognizing danger; vision in flight; spatial disorientation (vertigo); respiration and altitude; alcohol, drugs and performance.
P/N 3953

MOUNTAIN FLYING: Provides information and techniques for flying in the mountains and how to avoid the associated hazards.
P/N 13-22806

GPS/LORAN: Covers the operating principles of GPS & LORAN and discusses their benefits over conventional navigational equipment. Addresses filing a GPS or LORAN flight plan. Gives practical tips for using both systems.
P/N 13-22815

METAR/TAF: With implementation of METAR/TAF, the U.S. will utilize a common worldwide format for surface observations and forecasts. This video answers your questions and show you how to interpret current and forecast weather. Also includes 24-pg supplement providing comprehensive information on new formats (VHS).
P/N 13-01197

FLIGHT REVIEW: Follows a pilot through a typical flight review, stressing the topics and maneuvers that may be covered. (VHS)
P/N 13-01201

JEPPESEN TRAINING DVDS

JEPPESEN CHART TRAINING (DVD) - This exciting training tool enhances your knowledge of Approach Charts, Enroute Charts, and Arrival/Departure Charts. All are included on one convenient DVD! Interactive quizzes are also included to reinforce important concepts.
P/N 3076

AERODYNAMIC PRINCIPLES (DVD) - Get a complete look at the forces that keep an aircraft flying and those that work counter to it. By studying the four forces of flight - lift, weight, thrust and drag - you will learn how each force affects flight.
P/N 13-06214

FITS FAA INDUSTRY TRAINING STANDARDS (DVD) - FAA Industry Training Standards (FITS) was designed by the FAA to better prepare pilots for the challenges of flying technically advanced aircraft. FITS teaches pilots to think and respond using real-flight scenarios.
PN 13-06215

JEPPESEN GARMIN G1000 TRAINING CORE & VFR PROCEDURES

Teaches the skills required to master the operation and confidently fly the G1000. Includes a multi-mode methodology that includes a "Demo Mode" demonstrating the selected topic using narration, text, and animated graphics. A "Training Mode" that guides you through the required steps to accomplish the task, and a "Solo Mode" enabling the assessment of the user's performance. Over 60 topics taught in eight categories emulating the phases of flight including Abnormal and Emergency Operations, the use of the GFC700 autopilot, and Quick Tips. The program begins with the Start-Up category (product orientation) followed by typical Pre-Takeoff operations. It then progresses to Departure, Enroute, Arrival, Autopilot Operations and Emergency Procedures. An additional category called Quick Tips contains timesaving techniques to improve operational efficiency and product knowledge.
Garmin G1000 PDF&MFD Basic..... P/N 13-05787

G1000 Garmin PFD&MF Advanced P/N 13-05788

JEPPESEN CHART TRAINING DVD

Supplement your aviation knowledge with Jeppesen's FlightTime Videos and DVDs training topics. Each subject gives you a more detailed look at important aviation topics. This exciting training tool will enhance your knowledge of Approach Charts, Enroute Charts and Arrival/Departure Charts. All are included on one convenient DVD! Interactive quizzes are also included to reinforce important concepts. Material is suitable for students and experienced pilots alike.
P/N 3076

JEPPESEN INTRODUCTION TO NAVIGATION CHARTS

The chart training guide is published as a service for pilots training with Jeppesen charts. It is intended for reference only and includes some of the most commonly used symbolism. This guide is revised regularly; however some variance may exist between this guide and current chart services. These may be the result of one or more of the following; chart issuance dates, timely application of changes received from governing agencies, and/or the method of representing such information. The chart training guide has been designed as a supplementary training material and is not intended for navigation.
P/N 13-06253

GLOBAL POSITIONING SYSTEM

The Next Generation of Navigation - Provides the latest information available on GPS' rapidly changing technology, tools, rules, and procedures. You'll learn how to use GPS in VFR and IFR operations, and see how three different GPS approaches are flown. This fast-paced, 30 minute video includes 16-page GPS Reference Guide summarizing key requirements for GPS flight. (VHS)
P/N 13-22815

JEPPESEN CFI RENEWAL DVD COURSE

Renew your CFI certificate at home - on YOUR schedule - using this Jeppesen comprehensive and flexible FAA-approved program in a 16-hour format. You will receive eight specially produced, high quality videos and eight chapters of comprehensive text material. Our flexible enrollment allows you to enroll as close as 30 days prior to your expiration date. And Jeppesen can now issue your temporary CFI certificate directly to you. What could be more convenient!
P/N 13-04898

JEPPESEN GFD DVD SERIES

The jeppesen GFD DVD Series is a great resource for students and instructors alike. These DVD's contain many hours of informative and entertaining video that augment the written materials by providing visual reinforcement on a variety of topics. The state-of-the-art graphics, animation, and aerial photography help students grasp complex concepts.
