TRAIN LIKE YOU FLY: A FLIGHT INSTRUCTORS GUIDE TO SCENARIO-BASED TRAINING

Trains pilots based on scenarios instead of tasks. The book covers a broad range of topics in its 200-plus pages. These include an introduction and definition of scenario-based training, how to redesign a syllabus to include this method of instructing, how debriefing and evaluation differ with SBT, using weather in SBT, and a step-by-step guide to how SBT can be incorporated into training. There are chapters on instrument training, advanced training, and CFI training using scenarios. Throughout the book are useful tools, such as risk assessment checklists, debriefing forms, and syllabus suggestion is. McMahon also recognizes the abundance of advanced technology in today's training fleet Aden suggests ideas on how to incorporate those tools into training. Autopilots, for example, are presented as an aid, and not just a piece of dead weight through private training. P/N 13-06237
